

Skolkovo Softlanding Program is designed to facilitate the entry of a foreign company to the Russian market. The initiative covers **five industrial clusters**: Energy Efficiency, Information Technology, Nuclear and Radiation Technology, Space Technology and Biomedical Technology.

Duration of the Program is for **two weeks**, with the next session starting on **21st October 2019** till **1st November 2019**. Participants from **Skolkovo Softlanding Program** will be allowed to attend one of the biggest international conferences **Open Innovations** (<https://openinnovations.ru/en/>) scheduled in October 2019 for **free of cost**.

Skolkovo Softlanding Program will offer following benefits:

1. The Program is free of charge
2. A free access to co-working area
3. Access to a wide network of international partners, experts, mentors, investors and startups
4. Lectures, seminars and trainings
5. A personal Project Manager

Please note that the flight and accommodation are not covered under the program.

Upon completion of the one-month program the participants will have specific and detailed knowledge about the key aspects of doing business in Russia, as well as a local network of business connections. In addition, the participants will be offered **to become a Skolkovo resident**, which would allow them to take advantage **of tax and customs benefits, access to a range of supporting services and to financial support opportunities**. The working language is **English**.
